

TRACER 70/60

Supplement for Show Animals

Product Description: 70/60 a unique blend of specially expelled and extruded canola, flax and lentils from Canada. 70/60 is very high in omega fatty acids and will increase the level of omega fatty acids in the meat of the animal, the milk from the animal or the eggs from the animal you are feeding without any adverse effects on the flavor profile of the product. Highly researched and proven to dramatically change the fatty acid profile of the product. This will help increase marbling and rib eye area of animals. A MUST for any show animal or an animal you are keeping for your own food source.

Feeding Directions:

After consulting with a feed consultant to ensure a balanced ration, mix XFE "Showline Flax" EXL 7060.FA369 with other ingredients to obtain a complete ration. Suggested feeding rate of "Showline Flax" 7060.FA369 is .70 to 1.50 pounds per head per day for beef cattle, .50 to 2.60 pounds for Dairy Animals.
